## **Health advisory ends for Acme Water District in Whatcom County**

**OLYMPIA** – Whatcom County residents served by Acme Water District 18 no longer have to boil their drinking water. A health advisory issued Wednesday has ended because lab tests show the water meets safe drinking water standards.

The advisory was issued after a water main break caused a water outage. The pressure loss could have allowed contaminated or untreated water to be drawn into the system. The advisory affected only customers of Acme Water District 18. Acme is east of Lake Whatcom on Highway 9 between Sedro-Woolley and Deming.

Customers may call the water district at 360-201-9285 for more information.
